## Skills

- **Projects:** Am a detailed project leader and love to be crafty and creative! I love developing a project and the details to make it efficient and successful! Courage to try new things with success or revision. Take the lead on project ideas, gathering resources and the means to make it happen.
- **Technology:** Learn technology skills quickly and implement all technology as an effective tool. People come to me for tech support. Google, Microsoft, online presenting.
- **Connecting:** Collaborate with other educators and leaders to give students the best learning opportunity. Have presented staff development meetings, also active with DEI. Give learners confidence to achieve beyond what they thought they could do while building relationships and engagement.
- **Data:** Use data to drive instruction, research standards, modify teaching methods, and evaluate outcomes. Develop Instructional Design, curriculum, and assessments
