INDICTMENT

The United States Grand Jury charges:

COUNT ONE

**Conspiracy to Impede or Injure a Federal Officer
(Violation of 18 U.S.C. § 372)**

The Conspiracy

1. From in and around January 2026, through in and around June 2026, in the District of Minnesota and elsewhere, the defendants, **Isaac Auman Sant, a.k.a. Isaac Dalto, a.k.a. Ike (“SANT”); Emmett James Doyle, a.k.a. Plotnikov (“DOYLE”); Cameron Kennedy, a.k.a. Cam, a.k.a. Olive Knite, a.k.a. Knite (“KENNEDY”); Callum Robinet, a.k.a. Juliet K, a.k.a. Juliet, a.k.a. Cal (“ROBINET”); Erik Davis, a.k.a. Errico (“DAVIS”); Brian Stillwell Apland, a.k.a. Tiny (“APLAND”); Kyle Wagner, a.k.a. Kaos (“WAGNER”); Hannah Margaret Van De Water Davis, a.k.a. Gabriel Van De Water, a.k.a. Nube (“VAN DE WATER DAVIS”); Treasure Cay**

United States v. Sant et al.

Thoreson, a.k.a. Schatzi (“THORESON”); Nathan Junho Kim, a.k.a. Moon Bear (“KIM”); Alec Stewart, a.k.a. Mac (“STEWART”); Douglas Misterek, a.k.a. Doug, a.k.a. D Munny Big Dog Orf Orf (“MISTEREK”); Dustin Scott Beisell, a.k.a. Sparky (“BEISELL”), William Morgan, a.k.a. Willow, a.k.a. Willow Tree (“MORGAN”); and Natasha Rakotz, a.k.a. Anuron (“RAKOTZ”) (“the Defendants”), did knowingly conspire, with other persons known and unknown to the Grand Jury, to prevent by force, intimidation, and threats, officers and employees of the United States Department of Homeland Security (“DHS”), which includes United States Immigration and Customs Enforcement (“ICE”), from discharging the duties of their officers, in violation of Title 18, United States Code, Section 372.

2. The Defendants were members and associates of Twin Cities Direct Action (“TCDA”), which later changed its name to Direct Action Minnesota (“DAMN”), an organization dedicated and committed to direct action against federal law and immigration enforcement. Direct action refers to disruptive and obstructive tactics used by participants to forcibly challenge, block, or stop immigration raids, detentions, and deportations. DAMN describes itself as, “...as a decentralized coalition of working-class people engaged in various forms of community defense against the current Federal Occupation happening within the wider metro area, and against state and a far-right violence more broadly.” DAMN also trains its members in the use of shields against law enforcement, surveillance, event planning, role differentiation, and rapid mass mobilization against ICE enforcement actions.

United States v. Sant et al.

3. DAMN is comprised of members from several sub-groups, such as the Black Cat Worker's Collective ("BCWC"), Ray Rainbolt Memorial Shooting Club, and other organizations.

4. Many self-proclaimed "antifascist" or "Antifa" groups in the United States exist at the local level, in small units called affinity groups. Antifa groups frequently blend anarchist and communist views. BCWC is a Minneapolis-based Antifa affinity group committed to militant class struggle, community self-defense, and revolution. Militant class struggle includes disrupting rallies, digital campaigning, community organizing, and physical confrontation, often justified as collective self-defense. BCWC members advocate, promote, and utilize militant tactics and violence. BCWC members are intricately involved in the planning and execution of direct actions. The Ray Rainbolt Memorial Shooting Club is another Minneapolis-based Antifa affinity group dedicated to "community self-defense."

5. DAMN members worked closely with rapid response networks ("RRNs") to identify and harass federal immigration and law enforcement officers in order to harass and prevent officers from performing their official duties. RRNs are "inherently militant" with the "explicit aim of combating and stopping a federal agent with a gun." DAMN members utilize the Whipple Watch Signal group chat, which facilitates the identification of federal immigration and law enforcement vehicles and documents identifying information, such as license plate numbers, in databases. The databases include information like whether a vehicle has been identified as belonging to federal law enforcement, when it was last seen,

United States v. Sant et al.

how many times it was seen, the kinds of activities it was engaged in, if it was in a caravan, and if someone saw federal agents with tactical gear inside, all to help determine how aggressive the response to that particular vehicle should be. DAMN members often rely on information and intelligence produced by the Whipple Watch and other Signal group chats to target, harass, and confront federal immigration and law enforcement officers. Once someone relays information about a federal immigration or law enforcement officer's location, "dispatchers" relay "verified" information to "commuters," who deploy to the identified area to interfere with, prevent, hinder, delay, impede, and directly confront federal immigration enforcement, including "de-arresting" people that federal law enforcement have arrested. "Commuters" follow federal immigration enforcement officers from locations, like the Bishop Henry Whipple Federal Building ("Whipple Building"), to the officers' residences and other locations. "Commuters" often work with "co-pilots," who communicate with "dispatchers" in real-time. "Dispatchers" relay identifying information about immigration and law enforcement vehicles to "commuters" and "co-pilots." DAMN members often engage in "commuting" tactics with other members.

6. DAMN worked closely with other direct action groups, Antifa affinity groups, RRNs, and other organizations to plan for and execute certain direct actions. DAMN infiltrated and exploited lawful protests to more efficiently carry out its direct actions targeting operations involving ICE as well as supporting federal and state law enforcement. DAMN relied upon otherwise lawful protesters and "strength in numbers"

United States v. Sant et al.

to distract law enforcement and enable DAMN members to carry out its direct action operations.

Purposes of the Conspiracy

7. The purposes of the conspiracy include the following:
 - a. Preventing the enforcement of federal immigration law by force, intimidation, and threats;
 - b. Opposing the authority of the United States government;
 - c. Preventing, hindering, or delaying by force the execution of the laws governing the identification, detention, and removal of non-citizens, to include the Immigration and Nationality Act; and
 - d. Preventing, impeding, and interfering federal law enforcement from discharging their duties, including enforcement of federal immigration law by force, intimidation, and threats.

Manner and Means of the Conspiracy

8. **SANT, DOYLE, KENNEDY, ROBINET, DAVIS, APLAND, WAGNER, VAN DE WATER DAVIS, THORESON, KIM, STEWART, MISTEREK, BEISELL, MORGAN, and RAKOTZ**, with others whose identities are known and unknown to the Grand Jury, carried out the conspiracy through the following manner and means, among others, by:

- a. Coordinating anti-law enforcement actions using RRNs, whose members and associates use social media, text messaging, and encrypted messaging

United States v. Sant et al.

applications, such as Signal Messenger, to communicate with coconspirators and others;

- b. Preparing, coordinating, and executing direct actions and blockades to forcibly obstruct federal immigration enforcement operations at the Whipple Building;
- c. Advocating and promoting direct action against ICE and other law and immigration enforcement working in Minneapolis and the surrounding area;
- d. Utilizing “hard blockades” at or around the Whipple Building and throughout the Minneapolis area to forcibly obstruct and impede federal law and immigration enforcement actions. Members of the “hard blockade” team use debris (wood, leaf blowers, etc.), vehicles, trailers, Czech hedgehogs (a static obstacle made of metal angle beams), and other items to obstruct the roads used by law enforcement near the Whipple Building to impede the movement of federal law enforcement and immigration officers;
- e. Utilizing “soft blockades” at or around the Whipple Building and throughout the Minneapolis area to forcibly obstruct and impede federal immigration enforcement. Members of the “soft blockade” team wield homemade shields constructed from plastic, wood, and metal to physically resist the efforts of law enforcement, and to aggressively “wedge” or break through teams of officers on foot;

United States v. Sant et al.

- f. Employing “hard” and “soft” security to counter purported “fascists” or counter-demonstrators. “Hard security” includes members that are more confrontational and prone to physical violence. “Soft security” includes members utilizing de-escalation techniques;
- g. Conducting after action reviews (“after actions” or “AARs”) following planned direct actions to develop best practices;
- h. Utilizing social media, text messaging, encrypted messaging application, and word of mouth to advertise and promote specific direct actions;
- i. Coordinating with other groups and organizations—Melt the Ice, Week of Action, BCWC, Ray Rainbolt Memorial Shooting Club, and others—to plan and prepare for direct actions;
- j. Operating working groups for specific direct actions where members of the conspiracy develop, plan, and rehearse roles and operations for specific direct actions targeting federal law and immigration enforcement;
- k. Conducting targeted trainings and “dry runs” for participants to develop, plan, and rehearse roles, the use of shields, “de-arrest” tactics, and other strategies aimed at impeding federal law and immigration enforcement;
- l. Utilizing counter-surveillance tactics to inform members about the activities of law enforcement at or around the Whipple Building;

United States v. Sant et al.

- m. Engaging in “community self-defense,” which is a decentralized, militant approach to opposing groups it perceives as fascist as well as local and federal law enforcement;
- n. Utilizing and practicing “operational security” or “OPSEC,” such as collecting members cell phones during meetings to prevent recordings;
- o. Utilizing “commuting” tactics, which include identifying, following, surveilling, harassing, and confronting federal immigration enforcement with the goal of preventing, hindering, delaying, and impeding the enforcement of federal immigration law; and
- p. Training other direct action and Antifa affinity groups throughout the country about how to forcibly obstruct, prevent, delay, hinder, and impede federal immigration enforcement operations;

Overt Acts

9. In furtherance of the conspiracy, and to affect the object and purposes thereof, the defendants, **SANT, DOYLE, KENNEDY, ROBINET, DAVIS, APLAND, WAGNER, VAN DE WATER DAVIS, THORESON, KIM, STEWART, MISTEREK, BEISELL, MORGAN, and RAKOTZ**, and others known and unknown to the Grand Jury, committed various overt acts, including, but not limited to, the following:

- 1) On or about January 11, 2026, **DAVIS** moderated an event called “Emergency Meeting on Resistance to ICE Operation” on Central Avenue Southeast in Minneapolis. During the meeting, attendees broke out into the

United States v. Sant et al.

following groups based on their assigned roles for a January 23, 2026 direct action at the Whipple building: hard/blockade, soft blockade, mass commuting, civil disobedience, and march groups.

- 2) At the meeting, **SANT** introduced **DAVIS**, stating he was part of the Black Cat Workers Collective (“BCWC”).
- 3) Before the meeting ended, an unindicted coconspirator created a Signal chat group called “TCDA” where individuals from the meeting joined to coordinate actions for the January 23, 2026 direct action at Whipple.
- 4) On or about January 13, 2026, **KENNEDY** posted on Facebook, “It’s going to get much worse and non-violent ideology and our politicians aren’t going to save us. We need to become ungovernable. We need to actively resist anyway (sic) we can to materially stop the Nazi occupation forces.”
- 5) On or about January 14, 2026, at 10:03 p.m., **SANT** was present when rioters broke into Federal Bureau of Investigation (“FBI”) vehicles and stole several items, including a firearm, on the northside of Minneapolis.
- 6) On or about January 14, 2026, at 10:09 p.m., **SANT** sent a message in the “TC DA” Signal group message, stating, “ICE is gone. Standoff here with MPD (“Minneapolis Metropolitan Police Department”) in riot gear.”
- 7) On or about January 14, 2026, **SANT** sent a message in the “TC DA” Signal group message, stating, “Some folks raided an ICE vehicle for paperwork...”

United States v. Sant et al.

- 8) On or about January 15, 2026, **SANT** wrote an article for “Crimethinc”, an anarchist blog that styles itself as “an international network of aspiring revolutionaries.” **SANT**’s article, “North Minneapolis Chases Out ICE: A Firsthand Account of the Response to Another ICE Shooting” discussed law enforcement’s response to an officer-involved shooting in north Minneapolis. In the aftermath, **SANT** wrote, “...the officers lost control of the area and retreated, ceding the streets to those who had defied them.” **SANT** continued, “...ICE agents abandoned several vehicles in the area. Demonstrators opened up the vehicles and found identity cards, paperwork, license plates, operational plans, tactical gear, and other items.”
- 9) In the article, **SANT** discussed individuals breaking into an ICE vehicle. **SANT** described hearing someone yell, “This is one! This is ICE!” while pointing at a silver SUV parked on 24th Avenue North. **SANT** said he then “checked the plates against the database of ICE vehicles that activists keep, saw that she was correct, and instantly felt silly for doing clerical work in the middle of a riot.” **SANT** explained that, “someone started whacking one of the side windows with the ice scraper that had been in the previous vehicle, striking it as hard as possible. After a few swings, there was a satisfying crunch as the window gave in. People around me began kicking in these windows, too. Somebody got the driver’s side door open and threw a firecracker inside.”

United States v. Sant et al.

- 10) From on or about January 16 to on or about January 17, 2026, **APLAND** and **WAGNER** had a conversation in Signal chat. **APLAND** messaged **WAGNER**, stating, “Hey! Are you still in the cities? My comrades may be able to use your help. Do you still have that space in north...Kind of high security thing, so I want to be extremely careful if we decide to use the space, if indeed it is open. Building things. need production space. Fuck ICE.” **WAGNER** responded, “Let’s have a face to face conversation soon – we have resources.” **APLAND** replied, “10am my place” and provided his address.
- 11) On or about January 17, 2026, at approximately 11:46 a.m., **DAVIS** sent a message in the “TC DA” Signal group message, stating, “ANNOUNCEMENT – PLEASE READ ** working group delegates: please post links to your groups in reply to this message after reading to the bottom** The spokes coordinating group has been meeting and we’re making good progress. This message is to communicate some information, and to ask y’all to re-sort yourselves into the final action groups for Friday 1/23. UPDATE: We’re all in for 1/23. We have some initial plans, but also a few challenges. So, especially if you have connections to AFL-CIO leadership or decision-makers, PLEASE ASK THEM TO FOCUS ON WHIPPLE AND NOT DOWNTOWN...”

United States v. Sant et al.

- 12) On or about January 18, 2026, **WAGNER** posted a video on his Instagram account “kaos.follows,” which was captioned, “I’m fundraising for other mutual aid networks and spending my resources fighting back and organizing the direct action that’s getting us results...If you can’t be here and want to see us take the fight to them - give me your support and help us Stop ICE now. My link is in my bio - fund community protection and anti-ICE direct action. #vivalaresistance.”
- 13) On or about January 18, 2026, at approximately 10:15 a.m., **APLAND** sent a text message to **WAGNER**, stating “Hey Kyle! (**WAGNER**) Are you still planning on coming by this morning? Ike (**SANT**) and I are hanging out here waiting for you.”
- 14) On or about January 18, 2026, at approximately 11:17 a.m., **WAGNER** sent a text message to **APLAND**, stating, “Here.” **APLAND** also sent a text message to **WAGNER**, called him, and left a voicemail.
- 15) On or about January 18, 2026, at approximately 12:23 p.m., **APLAND** introduced **WAGNER** to **SANT** in the “January DIY” Signal group message. **APLAND** messaged, “Kyle (**WAGNER**), Isaac (**SANT**).”
- 16) On or about January 18, 2026, **SANT** posted a white flyer advertising the January 23 blockade at the Whipple Building in the “January DIY” Signal group message. The same flyer was later posted on the BCWC’s Facebook page.

United States v. Sant et al.

- 17) On or about January 18, 2026, at approximately 4:56 p.m., **SANT** messaged **WAGNER** in the “January DIY” Signal chat group, “Good talking today – let me know when the earliest date & time we could use that warehouse is.” **SANT, WAGNER,** and **APLAND** met earlier that day.
- 18) On or about January 18, 2026, at approximately 4:59 a.m., **APLAND** messaged **WAGNER** on Signal, “Would it be alright/useful if I connect you with a comrade of a comrade from Chicago who has carpenter friends who want to help with shield building.
- 19) On or about January 18, 2026, at approximately 5:39 p.m., **APLAND** created a new Signal chat group called “New Friends” and added **WAGNER** and “Sam.” **APLAND** messaged in the group, “Kyle, meet Sam. Sam is coming up from Chicago tonight to support us, also has some friend here who want to help with shield building. I learned this morning that Kyle was planning a shield build as well. Learned about Sam from my longtime California comrade, Forrest, who also happens to be on this chat.”
- 20) On or about January 19, 2026, the BCWC’s public Facebook page advertised “DIRECT ACTION TO SHUT DOWN ICE” and listed the date as January 23, 2026. The post also stated “The Whipple Building is ICE headquarters for the entire Upper Midwest. If we shut them down here, we halt the deportation machine everywhere. ALL OUT TO WHIPPLE THIS FRIDAY

United States v. Sant et al.

(January 23, 2026).” **SANT** later posted an image of the “DIRECT ACTION TO SHUT DOWN ICE” image in the “TCDA” Signal group chat.

- 21) On or about January 19, 2026, at approximately 6:15 p.m., **SANT** sent a message in the “TC DA” Signal group message, stating, “I just circled around Whipple and a car and scoped it out...There were 15 Hennepin sheriff cars there, with 2 by the light rail and 2 in south lot, and all the rest near Gate 3 on Federal Dr and in the tennis building lot...We should expect and plan for at least that many sheriff vehicles to be there on Friday. Their main goal is going to be to keep us out of the street and on the sidewalk. If we have the numbers, this may be difficult for them. Every spoke should adjust their plans accordingly.”
- 22) On or about January 20, 2026, **KENNEDY** purchased a trailer from Capital Car on Facebook Marketplace. **KENNEDY** messaged that he was borrowing a truck and could pick the trailer up the following day.

- 25) On or about January 21, 2026, at approximately 3:15 p.m., **SANT** texted an individual about “neighborhood rapid response groups,” describing them as,

United States v. Sant et al.

“extremely well-organized and have very good communication practices. Signal groups with 1000 people in them form every day, and are deleted and re-created every night. We benefit a lot from a counter-surveillance program called Whipple Watch, which is mostly what I did for the first 5 weeks of the invasion. That’s people posted up at the big federal building taking pictures of ICE license plates and adding them to a publicly accessible database in real time.” **SANT** continued, “There is also a lot of frustrating peace-policing, and a level of opsec that can be paralyzing. Probably 8000-10k people are volunteering to patrol their neighborhoods. When they find a kidnapping in progress, there is not a strong culture of physically resisting. Although that may be changing since Renee’s murder. The most frustrating thing is when you show up at a kidnapping, and the person running dispatch tell you to stay 30ft away and take pictures. Or even worse, when they say ‘Stay away from there, we have enough observers.’ An ad hoc liberal coalition called Defend612 plays an outsized role. After the murder, my crew called for a mass spokescouncil about planning direct action resistance to ICE. We encountered a ton of pushback from libs in every rapid response group...”

- 26) On or about January 22, 2026, at approximately 8:34 a.m., **APLAND** sent a message to **WAGNER** on Signal, stating, “We do need one or two of your trucks if you can make them available. This is an essential moment, the plan

United States v. Sant et al.

may not go forward if someone does not volunteer a truck. The trucks may not be lost, they just might be marked, plates might be compromised.”

- 27) On or about January 22, 2026, at approximately 11:05 a.m., **APLAND** sent a message in the “Construction Invoice #7” Signal chat group, stating, “Cam (**KENNEDY**) meet Kyle (**WAGNER**). Kyle is very generously offering a truck. **WAGNER** responded “What’s up – happy to help.” **KENNEDY** replied, “Hey Kyle. You are a hero! We need this bad to pull off our action tomorrow.” **KENNEDY** messaged, “Well, if you are willing to face possible arrest, it would be to use your truck to drive a trailer and deploy it with a small team of vetted folk to block a roadway. Time permitting-using chains to flip it. If you aren’t comfortable with that, letting us borrow your truck will ensure we can make this action happen.” **WAGNER** responded, “For sure can empty the truck and let it go missing...I’ve been urged by the community not to engage and to stay free – so I cannot get arrested...but this truck is already been stolen twice out of uptown and we’re going to let that happen again today yeah?” **KENNEDY** replied, “Love it. WE have another driver lined up so that works grand...When can we pick it up...and do you have a 2 inch hitch for a trailer?” **WAGNER** messaged, “It has hitches and balls for 2 or 2 5/16....I will have it cleaned out and ready this afternoon – you can take it after I have my shit cleared out.”

United States v. Sant et al.

- 28) Between on or about January 22, 2026, and January 23, 2026, **APLAND** and **WAGNER** exchanged approximately 20 connected Signal calls.

- 31) On or about January 23, 2026, at approximately 7:16 a.m. **SANT** walked from the Jake the Plumber business and entered the U-Haul Moving and Storage at Hiawatha (“Hiawatha U-Haul”), which is located on Hiawatha Avenue in Minneapolis.
- 32) At approximately 7:21 a.m. and 7:27 a.m., **SANT** received short code text messages from U-Haul.
- 33) At approximately 7:30 a.m., **SANT** drove a U-Haul cargo trailer from Hiawatha U-Haul to Jake the Plumber business. United States v. Sant et al.

- 40) At approximately 8:54 a.m., **KIM** and **STEWART** were at the Fort Snelling Light Rail station. **KIM** received a radio.
- 41) At approximately 8:59 a.m., **DOYLE** unloaded large “ICE OUT” and Palestine flag shields from the back of the U-Haul cargo carrier in and around the North Park and Ride Parking lot to a crowd of approximately 30-40 people. **DOYLE** also passed out pieces of white 55-gallon drums and wooden items to the crowd.
- 42) Between approximately 9:01 a.m. and 9:03 a.m., **SANT** met with a group of individuals at the Fort Snelling Light Rail station and appears to give them directions. The group then started walking towards the North Park and Ride.

- 46) At or around 9:38 a.m., **DOYLE** drove the U-Haul cargo carrier to the area at or around **DOYLE’s** residence on Snelling Avenue in Minneapolis.

United States v. Sant et al.

- 47) At approximately 9:46 a.m., the group holding the shields and barriers stood side-by-side, shoulder-to-shoulder, blocking road and vehicular traffic, forming a soft blockade in the road.
- 48) At or around 10:01 a.m., **SANT** told individuals participating in the soft blockade that he was going to see if the other blockade was deployed. **SANT** then walked from the soft blockade towards the Whipple Building's main gate.
- 49) At or around 10:11 a.m., **SANT** directed individuals towards the soft blockade.
- 50) At or around 10:17 a.m., **ROBINET** was seen participating in the "soft blockade."
- 51) At or around 10:22 a.m., **SANT** spoke with a group across the Whipple Building main gate. Several individuals from the group threw large ice blocks at law enforcement vehicles and into the road at or around this time.
- 52) At or around 10:29 a.m., **SANT** spoke with an RRN member and then walked back to the "soft blockade."
- 53) At approximately 10:29 a.m., **THORESON** was participating in the "soft blockade."

I'm Antifa...I'm on my way to Whipple with a bunch of gas masks with filters, get in my DMs, give me a salute. And let me know how to best to get you taken care of. There's more. I have everything I can fit in the car at the moment..."

I want y’all to realize though that if we had those numbers down at the Whipple Building today, we could shut down most of ICE’s operations in the state and actually have protected our people for at least a day, today. We need to focus our energy strategically to maximize disruption of ICE and minimize our own losses in people and materials. It takes a lot less to block 3 entrances into the federal building then a 75k march...We need to physically shut them the f**k down. I encourage you all to think about how to physically stop ICE, disrupt their logistics or otherwise directly impede them in your own life and find the courage to escalate your tactics to something more confrontational. It has folks attacking militant elements of the resistance and aiding the state against

United States v. Sant et al.

them because they think violence or even property destruction is counter revolutionary. They could not be more wrong. I want to make this as clear as I can: YOU WILL NEVER WIN WITH NON-VIOLENCE ALONE. Ever. No one has. No one will. You absolutely need militants to win. Anything in between Ike [SANT] characterized as 'security theater'...Please thumbs up to this message if you would be comfortable undergoing vetting via an internet background check of your legal name, as above. This would be done to all members, not just you, and those who refuse would be excluded from

tcda.” **KENNEDY** replied, “I oppose enforcing the legal name search for the broader group. I propose a combination with subgroups like ‘materials’ having a legal name vetting structure...” **KENNEDY** opposed the described level of vetting for subgroups, such as “art and propaganda.” **APLAND** responded, “agreed, I didn’t say all working groups, just the sensitive ones.”

I

MISTEREK responded, “I am under the belief is was for show for when Ilhan walked through...But that’s my uneducated speculation.” **KENNEDY** replied, “I wouldn’t call it uneducated...it’s likely. Folks been tracking them closely and while there are rumors of secondary facilities in Edina/Minnetonka, I haven’t seen any confirmation...There is a private airport in Eden Prairie it sounds like they do some deportations out of as well. down from Whiskey horse and we'll be holding Minehaha (sic). We designated a couple commons people and we'll coordinate scouts between both sides. We decided two scouts on bikes with burners and radios on our side to watch for kettling from the north side of Minehaha (sic). We'll deploy shields and some other stuff on Minehaha (sic)...we'll be more of a soft blockade hybrid...Start time is looking like 10:00 and we're going to check in every hour to determine holding the following hour." **THORESON** asked, "Are you gonna marshal again?" **STEWART** responded, "Not really sure where I'm fitting in yet lol..."

It’s a broader coalitional thing, so it won’t be exactly the same as we’ve been doing for the assemblies. United States v. Sant et al.

our crews to ensure we have a working system.” **VAN DE WATER DAVIS** described her discussions with the Week of Action team, stating, “an offer was made to direct people who had signed up for the WoA and might be interested in a more confrontational vibe to us (TCDA) and have one of us meet with them as a rep of TC DA on Wednesday...They also shared a map of what their planned routes are and where they are expecting to have scouts and marshals...” **STEWART** responded, “Thanks, Nube (**VAN DE WATER DAVIS**). That sounds fine to me and if we can get a few folks to meet up with them Wednesday, hell yeah. My understanding was that we were a hard blockade with soft backup, so as long as those folks are aware and down to hold ground, the more the merrier. I’m guessing Materials and Marshals have thoughts though.”

- 149) On or about February 23, 2026, at approximately 11:22 a.m., **ROBINET** sent a message in the “SecuritAs” Signal chat group, stating, “now that we have everyone in here we need to start pulling people together for this one on Friday (ICE OUT: March Against Ice Collaborators” event). It’s going to be a ‘make it work’ type situation with some other groups that don’t entirely share our ideology, but I’m hoping we can get at least 10 from here. Who is interested in volunteering?” **KENNEDY** replied, “I want to request to add Big Vic to this loop. They are a left jabber and personal friend of many years who is a long time anti fascist with an impressive background in security...”

United States v. Sant et al.

150) On or about February 23, 2026, at approximately 1:00 p.m., an unindicted coconspirator sent a message in the “SecuritAs” Signal chat group, asking, “Is there a length of time that someone should be a member in attendance before vouching for someone new? To be clear, not for the security team, but just to show up to a dry fire.” **ROBINET** responded, “Oh for Rainbolt (Ray Rainbolt Memorial Shooting Club)? No if you’re in the loop you’re good to propose people in the announcements chat. Put their name and where people might know them from, and then 1 week waiting period before coming to a dry fire. The relationship between this group (TCDA) and Rainbolt (and left jab for that matter) needs to be talked about at whatever meeting we have next.”

151) On or about February 23, 2026, at approximately 1:13 p.m., **STEWART** sent a message in the “SecuritAs” Signal group chat, stating, “Sorry to make another ask, but we’re looking for a couple hard and soft security to help with a march at Whipple on Sunday 3/1. This is just a precaution in case actual fash (fascist)...not soft handed Jake (reference to right-wing influencer Jake Lang, who was assaulted by left-wing rioters in downtown Minneapolis on January 17, 2026) show up. Also, anybody willing to loan 5-10 radios for that march? DM me for more details....It will be a march/blockade hybrid with anywhere from 200-800 people...”

United States v. Sant et al.

- 152) On or about February 23, 2026, at approximately 9:55 p.m., **SANT** sent a message in the “Whip 03/01” Signal chat group, stating, “I’m asking Melt the ICE organizers which welcome center is the most inoffensive one for us to have a shield training at...I don’t know if a particular one is better for finding people who might participate on Sunday, but I think we should plan to use them to recruit some people. People will be coming from out of town looking to get involved in stuff like what we’re doing.”
- 153) On or about February 24, 2026, at approximately 8:56 p.m., **ROBINET** sent a message in the “SecuritAs” Signal chat group, stating, “Alright, 20 radios are in – with bodyguard earpieces, programmed, and a printed copy of the radio book. If you want one, thumbs up this message and come pick one up...Oh and there’s a chance these might get covered by week of action funds so if that’s the case I will use any funds to buy more for Rainbolt (Ray Rainbolt Memorial Shooting Club) and other people who we like but aren’t here yet.”
- 154) On or about February 24, 2026, at approximately 12:48 p.m., **SANT** added **ROBINET** as a participant in the “Whip 03/01” Signal chat group.

We need folks with cars that are willing to post up in the north lot and come down Minnehaha towards the light rail station to pick people up if we need to leave in a hurry. I did exfil at the Daunte Wright protests in 2021 and can chat with you about it if you are not sure.” **SANT** replied, “Leyden and Tiny (**APLAND**) and I are calling the whole TC DA chat one by one to get an idea of headcount...So we can plan for exfil drivers accordingly.”

157) On or about February 24, 2026, at approximately 4:51 p.m., **VAN DE WATER DAVIS** sent a message in the “Whip 03/01” Signal chat group, asking, “I have one person so far who can scout, can we get one more person to volunteer?” An unindicted coconspirator responded “The scout is a biking position, correct? I have a potential volunteer, not a member though.”

158) On or about February 25, 2026, at approximately 2:59 p.m., **DOYLE** removed approximately five shields from the backyard at his residence on Snelling Avenue in Minneapolis and placed them in the back of his Dodge Ram under a green tarp. **DOYLE** again walked to his backyard and returned

United States v. Sant et al.

159) On or about February 25, 2026, at approximately 10:02 a.m., **SANT** sent a message in the “Whip 3/1” Signal chat group, stating, “We need numbers. I’m already going to the week of action welcome centers and recruiting out-of-towners for it by word of mouth. I think vetted rapid responders are welcome...Having big numbers is going to make this action safer. If we’re too cagey about inviting people, and we have small numbers, it’ll be more dangerous. I hope everyone here invites a friend. Especially cause we can’t put this one on social media.” **VAN DE WATER DAVIS** responded, “They can def come attendants of the action (sic)...Anyone who supports what we are doing can attend, there are boundaries around who is planning and coordinating and know strategic details.”

160) On or about February 25, 2026, at approximately 10:11 a.m., **VAN DE WATER DAVIS** posted a flyer for “Autonomous Action Against ICE” in the “TC DA (2)” Signal chat group. **VAN DE WATER DAVIS** messaged, “This is not for social media. We need numbers on our end of the 03/01 action at whipple we are coordinating with Melt the Ice! Please share this directly with friends and comrades. Even inviting one person will potentially help us out a lot! Hope to see you there!” **KENNEDY** responded, “In the future, I think we really need to post these kind of events, where numbers

United States v. Sant et al.

matter, on social media. It's more dangerous to avoid it and use word of mouth for large actions. It isolates us, makes us more of a target and is a lot less effective."

161) On or about February 25, 2026, at approximately 11:16 a.m., **STEWART** sent a message in the "Whip 03/01" Signal chat group, stating, "I forgot to mention last night, but I think we could use 5-10 traffic cones, 5 gal palls with lids, or big water jugs, and a couple of hand held blowers. I think I can get one blower."

162) On or about February 25, 2026, at approximately 12:35 p.m., **SANT, VAN DE WATER DAVIS**, and others discussed the planned March 1, 2026 action at the Whipple Building in the "TC DA (2)" Signal chat group. **VAN DE WATER DAVIS** messaged, "At this time we are primarily looking for people to come be part of the crowd with the understanding that this particular crowd will have a more confrontational character than the main March that will be coming out to whipple that day...the best way to get plugged into a supportive role is to join the project group...People who want to Marshal on Sunday please get in touch with @Schatzi (**THORESON**)."
SANT replied, "The main roles we're trying to fill right now are A) people to be in the blockade B) drivers to relay people back and forth from their cars to Whipple C) marshalls."

- 164) On or about February 25, 2026, at approximately 4:16 p.m., **VAN DE WATER DAVIS** sent a message in the “TC DA (2)” Signal chat group, stating, “We have the ok to share this (Autonomous Action on ICE flyer) on socials...This shouldn’t be directly associated in your post with the Melt the ICE March on whipple.”
- 165) On or about February 25, 2026, at approximately 8:41 p.m., **SANT** sent a message in the “Whip 03/01” Signal chat group, stating, “The three biggest updates from the meeting with Melt the ICE people: Indigenous march is now planning on staying until 2pm (not noon!). Do we follow suit? They can only give us 3 burner phones, we will have to provide our own for the other 2. I have one, we’ll need one more. The march has on-site jail support person, they asked if we could have one too.”

United States v. Sant et al.

- 166) On or about February 25, 2026, at approximately 10:59 p.m., **KIM** sent a message in the “Whip 03/01” Signal chat group, stating, “The walking trail (between light rails at or around the Whipple Building) is really chill and you can go pretty far up it. 30 mins north takes you out a dog park by light rail if you’re feeling paranoid. Good spots to change and ditch clothes along the way if needed.”
- 167) On or about February 27, 2026, at approximately 2:21 p.m., **DOYLE** drove his Dodge Ram to **SANT**’s residence in St. Paul.
- 168) At approximately 2:30 p.m., **DOYLE** and **SANT** departed **SANT**’s residence in the Dodge Ram and drove in or around Peavey Plaza in Minneapolis.

United States v. Sant et al.

- 172) On or about February 27, 2026, at approximately 7:15 p.m., **DOYLE** led shield training at Zion Community Commons in St. Paul. **DOYLE**, **SANT**, **KENNEDY**, and others took part in the training.
- 173) At shield training, **DOYLE** stated that the shield provides an advantage in situations where you are close to the enemy. **DOYLE** continued, "...fighting with the fascists rather than just going at them just chest to chest with no shields, if you have a shield wall, you are going to be more effective and much more safe than they are...Take your strongest, heaviest, fastest most aggressive people and put them at the point of that wedge...have your strongest people pushing through..." **SANT** stated, "Find two scrawny looking cops and get between...and in that case, somebody just used an umbrella as a wedge...and just parted the two cops."
- 174) On or about February 28, 2026, at approximately 8:53 a.m., **APLAND** sent a message in the "TC DA (2)" Signal chat group, stating, "IF the plastic really is better for repelling projectiles...we should look into getting a bunch of flat plastic that we can cut flat shields out of." **KENNEDY** responded, "Part of what makes the barrel shells Id a lot better for protecting against projectiles is the curved shape, it deflects impact where as flat surfaces just eat the impact, you can feel the vibration a lot more and flat surfaces splinter easier. Frankly I think we will be doing 98% protecting against projectiles and maybe 2% fending off snitch squads with shields on Sunday. In this recent

United States v. Sant et al.

iteration of struggle, the cops have almost never brought shields of their own and heavily favor projectiles.”

175) On or about February 28, 2026, at approximately 9:02 p.m., **VAN DE WATER DAVIS** sent a message in the “Whip 03/01” Signal group chat, stating, “Hey folks. My buddy for my vehicle dipped on me. I need a backup, anyone who can act in that role dm me ASAP.” **VAN DE WATER DAVIS** responded, “Problem solved.” Two coconspirators replied with heart emojis.

176) On or about March 1, 2026, at approximately 7:22 a.m., **VAN DE WATER DAVIS** sent a message in the “Leave and Delete” Signal group chat, stating, “Sparky (**BEISELL**) and I are en route to Whipple for first scout...1 sheriff at North Lot...2 sheriffs parked by train tracks at light rail station...4 sheriffs at 6000 minnehaha...5-6 Sheriffs at gate 3...2 sheriffs at the freeway exit...2 sheriffs at fort snelling park And ride south lot.” **STEWART** and an unindicted coconspirator sent “thumbs up” emojis.

177) On March 1, 2026, from on or about 8:45 a.m. to on or about 8:55 a.m., **THORESON** and several other individuals arrived at the Fort Snelling Light Rail station.

To keep the alliteration it would be the Black Band, or...well, the Black Bloc. They actually used Black Bloc tactics, too-wearing all black clothing and masks when they fought fascists.”

forces away from Whipple with a feint opens up other opportunities along with the idea of driving vehicles through to get them to follow us. Please DM me about what you have noticed as far as HCSO’s (Hennepin County Sheriff’s Office) behavior regarding ICE. So they think they are showing up during commuting because they are on to our hours or are being called once we start following? What have you seen that makes you think they are working together? Thanks! Gathering data!”

227) On or about April 2, 2026, **ROBINET** and other unindicted coconspirators took part in the “Anarchist Speaking Tour” in Chicago, Illinois. **ROBINET** explained, “We made this group called Workers Solidarity Circle coalition between local DSA (Democratic Socialists of America) branch, Black Cat Workers Collective, which is the descendant of people familiar with the Ray Rainbolt Shooting Club and Red Pine Revolutionary Collective. So we’ve been working towards building these workers assemblies to get inter-union conversation going. But when all of this stuff went down, we threw together this emergency kind of mass meeting about the incident at hand here. And not only did we put it out to all of the union people, we put it out to all of the rapid response chats in the cities.” **ROBINET** discussed expanding the

United States v. Sant et al.

rapid response structure beyond anti-immigration enforcement activities, stating, “There’s a lot more potential in these structures than they’re even being used for, you know, as things are kind of slowing in some ways in Minneapolis and they’re setting their sights elsewhere...you know in these neighborhood group chats, people ask questions like what is mutual aid? Is that just kind of like charity? Not really. But you know, kind of here’s what here’s what we’re trying to do. You know, people have questions about anti fascism...you know, can we organize against regular law enforcement...like during the George Floyd situations in 2020, there were neighborhoods that had, you know, groups like this that tried out some of this stuff into big success.” **ROBINET** continued, “A lot of people elike to think about this as just community defense kind of a thing, which I think it’s true in some ways, you know, but community defense also means attack, right? Some people are purely here for creating safe....there’s also like an inherent militancy into this project and it’s all part of like a chain of insurgency.” **ROBINET** stated, “All three of us are anarchists,” referring to himself and the other two speakers.

228) On or about April 8, 2026, **ROBINET**, **MORGAN**, and other DAMN coconspirators took part in the “Anarchist Speaking Tour” in Ann Arbor, Michigan. During the event, they discussed “commuting” tactics directed towards immigration enforcement officers. **MORGAN** stated, “another part

United States v. Sant et al.

of our rapid response infrastructure that's rather critical is relays. Just for context, like ICE is an entirely car-based operation. They're driving from one place to another and they're driving fast. So they rarely stay in one place for very long. And it's important that when they leave one area and enter another, the area they're entering is alerting so that place's rapid responders and patrollers can address the situation. This is known through relays in each hyper local chat." **ROBINET** discussed "rapid response," stating it "is an inherently militant project...this is something with the explicit aim of combating and stopping a federal agent with a gun."

229) During the event, **ROBINET** told the crowd, "So this is an anarchist speaking tour. We're all anarchists. This is something that we believe in principle, but you know, the whole movement in the Twin Cities...they didn't believe these things first...They did them. Because they worked, right? We found that time and time again that the centralized model is a model of telling other people what to do...and what does work is that we stand out together where we see each other as only human beings, and we adopt this horizontal power structure, right? We all contribute in the way that we can. When we don't stop the people who are trying something different or something new, even if we don't agree with it, you know, this may be an opportunity for discussion, but we're not going to try and tear each

United States v. Sant et al.

other down because that's not helpful, right? This is the kind of everyday anarchism that made this resistance function right."

230) On or about April 17, 2026, at approximately 10:18 a.m., an unindicted coconspirator sent a message in the "Whipple Watch (Refresh)" Signal group chat, stating, "Can vouch for Juliet K (**ROBINET**)! They will be my copilot today."

231) On or about April 17, 2026, at approximately 11:19 a.m., **ROBINET** sent a message in the "Whipple Watch" Signal group chat, stating, "Cora (unindicted coconspirator) and I are on lrj105, west on 62." **ROBINET** then sent out a license plate, which he noted, "was a decoy for the white charger." **ROBINET** later messaged, "Van convoy headed up post road...van convoy headed to checkpoint gate 222." **ROBINET** continued that, "That convoy was 3 large vans full of detainees from Whipple to gate 222" and he sent out four vehicle and three license plate descriptions. At 2:34 p.m., **ROBINET** messaged that, "Cora (coconspirator) and I followed that (license plate number for a government-issued vehicle) black Dodge charger up Hiawatha. then he turned his lights on and floored it after Franklin -nearly caused an accident heading towards 7th st exit and last minute cut to 35w. Lost him around 35w bridge. We're calling it for today. Stay safe and chill, f**k ice."

232) On or about April 18, 2026, **SANT**, **KENNEDY**, and **MORGAN** took part in the "Anarchist Speaking Tour" in Seattle, Washington. During the event,

United States v. Sant et al.

SANT said, “We’re here from Minneapolis. We’re on tour to talk about our experiences resisting the ICE occupation. **KENNEDY** discussed the history of violent resistance in Minneapolis. **KENNEDY** described the looting and burning of the Minneapolis Police Department’s Third Precinct as “the happiest moment of my life.” **KENNEDY** explained, “A lot of mutual aid networks that were later characterized...this resistance to ICE came from the George Floyd uprising.”

233) During the event, **SANT** described taking part in the January 14, 2026 theft of materials from law enforcement vehicles near Lyndale Avenue North and 23rd Avenue North. **SANT** explained he saw three black vehicles being looted and observed individuals break into the vehicle. **SANT** stated that individuals “pry open a gun safe” in the back of one of the vehicles. **SANT** explained, “some kids like like rip open the glove box and start live streaming on Instagram the sensitive documents that were inside. And we got the full names of like 10 ICE agents and some operational details from Whipple from that. I remember getting out my phone and being like yeah these look like ICE...and like checking their license plates against a database that we maintain and feeling really stupid for doing clerical work in the middle of a riot.” He continued “Right after this happened, MPD tear gassed us...we were expecting them to come like, you know, come through the gas cloud and arrest people. But that didn’t happen...So I and one of my friends went

United States v. Sant et al.

and scouted the perimeter and we saw that they were actually gone and they had ceded the streets to the people.”

234) At the event, **KENNEDY** discussed the January 23, 2026 direct action at the Whipple Building. He discussed utilizing a “soft blockade with shields at one entrance.” **KENNEDY** said there were “two other deployment teams...those deployment teams had trailers that they had bought off of Facebook Marketplace for really cheap and they essentially tried to blockade the other entrances simultaneously with this blockade (pointed to soft blockade on the projector). One of those trailers was deployed and flipped and successfully shut access. The other was about 30 seconds away from successful deployment before the team was actually pepper sprayed. They managed to avoid arrest...and they managed to drive away, albeit losing the trailer in the process.”

235) During the event, **SANT** discussed the logistics of “commuters,” who follow, harass, and confront federal immigration enforcement vehicles. **SANT** described, “...commuters were on a phone call in real time with a dispatcher who was somewhere with a dispatcher who was somewhere in the privacy of her own room reporting on like that convoys movements. That dispatcher was in a relay chat that allowed for communication between the Elliott Park and the adjacent Loring Park neighborhood...” **SANT** further explained, “We don’t recommend that anybody ever commute or control by yourself

United States v. Sant et al.

because it's an inherently dangerous thing. So you always want to do that with a buddy who's your copilot. So like you're driving and looking for ice, your co-pilots on the phone talking to dispatch and however many other commuters on a Signal call...you might ask that dispatcher for plate checks, like they're looking at a database of license plates and you're not. And you might be like, so a lot of like your day and you're like, hey I wonder if that's ICE...And like you see a suspicious looking white Jeep Wagoneer, your copilot like reports a dispatch...and then you follow that car until you can't anymore." SANT then described Whipple Watch as a "counter surveillance project," stating, "This is a very like boring and unglamorous and unsexy side of our work, but basically what I and my comrades do is we go down to Whipple building and hang out there all day and photograph every ICE vehicle that's coming in and out of the vehicle." SANT continued that, "Now in April and we have it down to a science and it's more or less instantaneous. We maintain a searchable database in conjunction with data collection group called Defrost that's publicly searchable on a website...Defrost is the list of every vehicle that we've ever seen ICE in make and model plates and like where and how many times it's been spotted...So what we've started to experiment with now is we maintain a second database that's only current plates. We erase it at the end of every night and we refresh it the next morning...and hot dishes is just a database of like all the active plates that

United States v. Sant et al.

left Whipple that day. So commuters can know like what we're, we have confirmed on the road at the moment....What we do is, I mean we have a two fold motive of like getting their plates and blasting those out to all the neighborhoods and also just like wasting their time and resources."

236) During the event, **KENNEDY** described different ways to blockade the Whipple Building, including "intentional shut them down blockades." **KENNEDY** pointed to the projector screen and said, "the one you see over here is another shield wall on March 1st." He continued, "this demonstration had four components to it. There was a above ground march that was led by indigenous sundancers that would take up gate one of the Whipple Building and the others were designed to essentially shut down the other two points of egress...there was 3 deployment teams. The first deployment team brought in shields." The second deployment team "was sent in and they had something to be like tank busters..." **KENNEDY** described these items as similar to "images of like D-Day, they're like the metal X structures that you see and actually when the vehicles hit them, it digs back into the road and will stop the vehicle." **KENNEDY** explained, "I was on deploy 2 or deploy 3 and I had a 10-foot U-Haul box truck and a 30-foot trailer that I was going to use to block one of the entrances." **KENNEDY** stated he learned that the other two deployment teams were arrested and that ICE was "tailing" him.

United States v. Sant et al.

KENNEDY described taking law enforcement on “a tour of the Twin Cities” and that it “was one of the dumbest police chases I’ve been in my life. “

237) During the event, **MORGAN** explained, “there is an inherent militancy to this project” and stated “this is something that comes with the explicit aim of stopping and combating an armed federal agent trying to violently abduct your neighbor...” **KENNEDY** stated he is a “revolutionary anarchist.” He continued, “the anarchist movement will achieve the ability to have fluid communication between independent groups without stateany centralized leadership...I believe that’s exactly what we’re seeing in Minneapolis...”

238) During the event, **SANT** stated, “I think that Twin Cities real contribution to the field of revolutionary organization, of insurrectionary organization is these rapid response networks...” **SANT** later stated, “I am in an anarchist, revolutionary organization. It’s called Blackcat.”

239) During the event, **MORGAN** stated “Now we’ve talked about patrolling rapid responding and Whipple Watch, we want to give you a glimpse into the rest of the breadth of tactics that we’ve used in our insurgency against the occupation of our state.”

240) On or about April 20, 2026, at approximately 12:49 p.m., **RAKOTZ** sent a message in the “Whipple Watch (Refresh)” Signal group chat, stating, “I am here to commute but waiting on copilot.”

- 242) On or about April 24, 2026, **KENNEDY** posted on Facebook about taking part in an interview with Seattle NPR who were covering the “Breaking the ICE” tour. **KENNEDY** discussed the anti-ICE operations in Minneapolis, writing, “...We make a very strong and compelling case that militant confrontations with ICE are what made our movement explode in numbers, drastically reduce deportation numbers and ultimately get the feds to retreat from operation Metro Surge (we even used graphs depicting the change in deportation rates before and after militant confrontations) in addition to the vast network of mutual aid and decentralized community rapid response networks.” **KENNEDY** criticized a non-violent approach to opposing immigration enforcement, referring to pacifism as “an anti intellectual blight.”
- 243) On or about April 28, 2026, at approximately 1:24 p.m., **SANT** sent a message in the “DAMN” Signal group chat, stating, “There’s an effort tomorrow morning to commute around ICE’s hotels by Mall of America. 7am-10am. Anybody interested in joining me to copilot?” An unindicted coconspirator responded, “I haven’t copiloted since Dec/Jan but I could see if you need someone.” Another unindicted coconspirator messaged, “My

United States v. Sant et al.

commuting buddy and I could join this effort, is there somewhere I can be added for more info?”

244) On or about May 1, 2026, at approximately 5:17 p.m., an unindicted coconspirator sent a message in the “Renegades” Signal group chat, stating, “I wish there was an in-person career fair where you could go from booth to booth, and listen to all the anarchist, Rebellion, and protest plans being made, and sign up to the ones you thought were interesting. Now, it’s like an Amway pyramid selling scheme. I understand that the security of a one hour self destruct message chat. How does that allow us to plan, train, and recruit for anything ‘spicy’? PM, since I don’t understand it.” **RAKOTZ** responded, “I would love to find out more direct action/civil disobedience stuff when re the goal is to be arrested for the optics.”

245) On or about May 4, 2026, a federal immigration officer left the Whipple Building in his government-issued vehicle. **SANT** drove a Hyundai Sonata and followed the federal immigration officer from the Whipple Building to Hudson, Wisconsin. St. Croix County deputies stopped the Hyundai Sonata in Hudson, Wisconsin and identified **SANT** as the driver.

246) On or about May 4, 2026, at approximately 2:08 p.m., **SANT** sent a message in the “Whipple Watch (Refresh)” Signal group chat, stating, “494 E approaching concord st s...Just getting to woodbury...Nb on 494...Do we have any rr (rapid response) calls in hudson? We’re looking to handoff if

United States v. Sant et al.

possible...We're in WI. we're going to keep following. We won't get back to Whipple for another one...Carmichael rd nb..." At 2:29 p.m., **SANT** messaged, "Cop pulling us over...stopped by police in Hudson WI...They let us go with a warning. Threatened us with criminal charges."

247) On or about May 7, 2026, at approximately 5:59 p.m., an unindicted coconspirator shared a link to the "The White House Counterterrorism Strategy," in the "DAMN" Signal group message, which discussed several national security threats, including from "anarchists and Anti-Fascists." The unindicted coconspirator messaged "The White house just declared us terrorists..." **APLAND** responded, "Terrorism is direct action." **KIM** noted that, "My new bio: anti-American, radically pro-transgender, and anarchist." **KENNEDY** messaged, "Unless we can organize large numbers and direct them to swarm Whipple, losing the gates provides almost as much challenge as having them there. It did make blocking the entrances easier with smaller numbers. It will be a lot easier for a large group to overwhelm them now and challenge the actual building but without the numbers, it seems difficult to use it to our advantage at least in the short term."

248) On or about May 7, 2026, at approximately 12:39 p.m., participants in the "DAMN" Signal group message discussed the Hennepin County Sheriff's Office removing the barriers and fencing around the Whipple Building. **SANT** messaged, "Never interrupt your enemy while they are making a

United States v. Sant et al.

mistake...This is an opportunity we can't afford to ignore, imo (in my opinion)."

249) On or about May 9, 2026, at approximately 10:27 a.m., **MORGAN** sent a message in the "Whipple Watch (Refresh)" Signal group message, stating, "Is anyone available to copilot today? Baul plart (an unindicted coconspirator) is unavailable."

the future. We realize that tearing down oppressive systems is only the beginning and we work towards building upon existing interdependent community to rectify the many failing of the current system.” The document also explained DAMN’s vetting process, stating, “Candidates that come to us on their own accord are assigned a point person from the vetting team and given a list of questions/instructions to reply, including...orgs you’ve been involved in the past 5 years, how you found DAMN, why you want to be part of this group, and how you define ‘direct action’. Describe a direct action you participated in or you have detailed knowledge of (without naming names or admitting to illegal acts)...Members of vetting team will volunteer but their service on the vetting team must be approved by DAMN. Members must have been active in DAMN for a minimum of 3 months...before they can volunteer...Candidates that are being recommended by a current DAMN member will be asked for a character review from this member, including how they know the candidate, how long, any traits that will be helpful to DAMN, any concerns. They will also be asked about past participation in direct action that they have witnessed from the candidate (without any illegal acts identified to anyone as above)...an initial vote on each prospective member shall be conducted over a period not to exceed 7 days...All new members have the option to be assigned a ‘supportive comrade’...”
