

Are you interested how laws get made?

Want to get real experience monitoring the process?

Do you want to know more about the professional use of ADR?

Are you curious about the function of an ombuds?

Seeking Legislative Research Interns

Spring 2021-Spring 2022

The ABA Ombuds Legislative Subcommittee is seeking law students to track legislative proposals and case law.

- The Legislative Research Intern would identify existing state case law and legislation that has the potential to impact ombuds work and provide a report on findings.
- Then the Intern would track new and existing legislative proposals as they make their way through the process and any court cases that could impact Ombuds work.
- This is a great opportunity to watch a bill become a law - or not, and to learn about the process.
- The Intern would also have access to all ABA Ombuds Legislative Subcommittee meetings and would learn how different types of ombuds work.
- Most importantly, the Intern would learn about how laws and court cases impact people and their work in an ADR focused profession.

AMERICAN **BAR** ASSOCIATION

Dispute Resolution Section
Ombuds Committee

Ombuds:
Unusual name. Important service.

**Application
Deadline**

February 26
